

1-Hour Web Development Basics (Hands-On)

Audience: 12-year-olds

Goal: “I built my first website 😊”

Tools: Browser + simple text editor (Notepad / VS Code / Replit)

0 – 5 mins | Warm-up: What is a Website?

 *Hook them first*

Talk about:

- “Who uses websites?” (YouTube, TikTok, Google)
- “A website is just text + pictures + links”
- “Today, YOU will build one”

Demo (quick):

- Right-click → *View Page Source* on a simple site
 - Show: “See? Just text!”
-

5 – 10 mins | How the Web Works (Super Simple)

 *No deep networking*

Explain like a story:

- Browser = asks for a page
- Server = sends the page
- HTML = the page’s structure

Analogy:

- 🏠 HTML = house walls
- 🎨 CSS = paint & decorations

- 🗨 JavaScript = things that move/talk
 - 👉 “Today we focus on HTML only”
-

10 – 15 mins | Create First Web Page

🎯 *Instant success*

Hands-on:

1. Open Notepad / editor
2. Create a file:

```
index.html
```

3. Explain **.html = website file**
4. Open it in a browser (double click)

🎉 “Congratulations, you just made a website (even if it’s empty)”

15 – 30 mins | HTML Basics (Hands-On Coding)

🎯 *Type together, slow pace*

Teach these tags only:

- `<html>`
- `<head>`
- `<body>`
- `<h1>`
- `<p>`
- `<img>`
- `<a>`

Build together:

```
<!DOCTYPE html>
<html>
<head>
  <title>My First Website</title>
</head>
<body>
  <h1>Hello, my name is Alex</h1>
  <p>I am 12 years old and I am learning web development.</p>

  

  <p>
    <a href="https://google.com">Visit Google</a>
  </p>
</body>
</html>
```

Explain while typing:

- Tags = instructions
- Opening & closing tags
- Save → Refresh → See changes

30 – 40 mins | Mini Experiments (Fun Part)

 *Let them play*

Challenges (call out loud):

- Change the text
- Make the heading bigger
- Replace the image
- Add another paragraph
- Add a link to YouTube

Walk around, help, hype them up 😊

40 – 50 mins | Personal Mini Project

 *Ownership*

Task:

👉 “Create a personal profile page”

Must include:

- Their name
- One thing they like
- One image
- One link

You can write on board:

- ✓ Name
- ✓ About me
- ✓ Picture
- ✓ Link

50 – 55 mins | Show & Tell

 *Confidence boost*

- Pick 2–3 volunteers
- Let them open their page
- Everyone claps 🙌

Say:

🗨️ “You are officially web developers now”

55 – 60 mins | Wrap-Up & Next Steps

 *End with inspiration*

Recap:

- Websites are made with HTML
- You created one today
- Anyone can code

Tease next lesson:

- “Next time we add colors 🎨”
- “Next time we make buttons move 😎”
