

8-Week Web Development Lesson Plan (Ages 12)

Session length: ~1 hour/week

Style: Hands-on, fun, visual

Final outcome: A simple personal website

Week 1 – Introduction to Web & HTML Basics

(Already done)

They learned:

- What a website is
- How the web works (browser + server)
- HTML structure
- Headings, paragraphs, images, links

Mini project:

✓ “My First Web Page”

Week 2 – Styling with CSS (Make It Look Cool)

Goal: Add colors, fonts, and spacing

Concepts (simple language):

- CSS = website clothes
- Colors, fonts, sizes

Teach:

- `<style>` tag

- color
- background-color
- font-size
- text-align

Hands-on:

```
<style>
  body {
    background-color: lightblue;
    text-align: center;
  }
  h1 {
    color: purple;
  }
</style>
```

Activity:

- Make a colorful profile page
- Center text
- Change background color

Mini project:

🎨 “My Styled Profile Page”

Week 3 – Layout Basics (Boxes & Sections)

Goal: Understand page structure

Concepts:

- Websites are made of boxes
- Sections = different parts of a page

Teach:

- `<div>`
- `border`
- `padding`
- `margin`

Hands-on:

```
<div class="card">
  <h2>About Me</h2>
  <p>I love football and coding.</p>
</div>
```

```
.card {
  border: 2px solid black;
  padding: 10px;
  margin: 10px;
}
```

Mini project:

📦 “My About Me Card”

Week 4 – Links & Multi-Page Websites

Goal: More than one page

Concepts:

- Websites have many pages
- Links connect pages

Teach:

- Multiple HTML files
- `<a href="page2.html">`
- Simple navigation menu

Activity:

- Create:
 - `index.html`
 - `about.html`

Mini project:

 “My Two-Page Website”

Week 5 – Images, Media & Fun Content

Goal: Make it visual & exciting

Teach:

- `<img>`
- Image sizes
- Background images
- Emojis 🤪

Bonus:

- Simple GIFs
- Favorite photos (safe ones)

Mini project:

 “My Hobby Page”

Week 6 – Intro to JavaScript (Make It Interactive)

Goal: First interaction (VERY basic)

Concepts:

- JavaScript makes things happen
- Buttons can talk 🤪

Teach:

- `<script>`
- `alert()`
- `onclick`

Hands-on:

```
<button onclick="sayHello()">Click Me</button>
```

```
<script>
  function sayHello() {
    alert("Hello, welcome to my website!");
  }
</script>
```

Mini project:

 "My Talking Button"

Week 7 – Simple Logic & Mini Games

Goal: Feel like a real programmer

Teach:

- Variables
- `prompt()`
- `if` statements

Example:

```
<script>
  let name = prompt("What is your name?");
  if (name) {
    alert("Nice to meet you " + name);
  }
</script>
```

```
}  
</script>
```

Mini project:

🎮 “Guess My Name” or “Welcome App”

Week 8 – Final Project & Showcase

Goal: Combine everything

Final Project:

👉 *Personal Website*

Must include:

- Home page
- About page
- Images
- Colors
- Button with JavaScript

Activity:

- Build
- Decorate
- Present

🎉 **Certificate moment**

🎉 **Group photo**

🎉 **“You are web developers!”**

Teaching Tips (Important for 12-Year-Olds)

- Type **together**, not “watch me”
- Celebrate tiny wins
- Avoid errors overload

- Use fun analogies
- Walk around constantly
